Schedule of Third-Party Services

Effective November 2, 2026. This Schedule of Third-Party Services supersedes and replaces all prior versions.

This Schedule of Third-Party Services lists the third-party software, platforms, and services ("Third-Party Services") that Provider may use to deliver the Services, with links to each provider's terms and privacy policy. Not every Third-Party Service is used for every Client; the Third-Party Services used for a Client are those needed for the Services in its Order.

Provider's responsibility for Third-Party Services and subcontractors is stated in Section 8 of the Master Services Agreement: Provider is responsible for selecting, configuring, monitoring, and managing the Third-Party Services it uses, and for its subcontractors' performance of the Services, but not for defects inherent in a Third-Party Service or outages or breaches at a provider that Provider could not reasonably have prevented or mitigated. A provider's terms govern Client's use of its product to the extent they apply to Client directly. Where a Third-Party Service creates, receives, maintains, or transmits Protected Health Information on Provider's behalf, Provider uses it only under a written business associate agreement that meets the HIPAA Rules, as provided in Section 3.6 of the Business Associate Agreement.

Provider may add Third-Party Services to this Schedule at any time. Replacement of a Third-Party Service used for an existing Client's Services is subject to the notice and objection rights in Section 8.4 of the Master Services Agreement.

The following table lists the Third-Party Services that may be used by Provider, along with weblinks to each Third-Party Service provider's agreements and policies.
